„Paths are made by walking them.“

Franz Kafka

Globalization, digitization, Industry 4.0 - who doesn't know them, the buzzwords and the associated topics of the present and near future. Markets are being vigorously shaken up and are changing rapidly as a result of globalization and digitization. Customer wishes and product requirements are also changing, and the demands on quality, flexibility and economic efficiency are not becoming any less. This is undoubtedly not an easy undertaking for a medium-sized company with around 90 employees that wants to maintain its position in a global market. But we are rising to the challenges. Just as the generations before us have done in our family business: Take new paths, work out new opportunities, think things in a new way, want to be flexible, agile: Thus, we have optimized processes and structures in the company, made IT and merchandise management fit for the future and at the same time continuously develop new and sophisticated solutions for a variety of specific surface repair problems. In addition, we offer our customers customized solutions in the form of integrated concepts. Paints, fillers, finishes through to labels and instructions for use - almost anything is possible, tailored to specific customer requirements.

What helps us with this is the vast amount of experience that has grown over several decades. And: We don't want to stay seated on our knowledge, but are happy to pass it on. With numerous repair tips and many application videos on our website and our YouTube channel, we share our know-how and also pass it on live in our diverse practical seminars in our in-house training center.

Furthermore, we have our own webshop for the professional on the web. At www.heinrichkoenig-shop.de you can shop quickly and without a minimum order value (only for german costumer). And in addition to the well-known „König“ brand products for professional use, we have firmly established ourselves in the consumer sector with the „picobello“ brand, offering a well-rounded range of products tailored to the needs of the end consumer market. Products and sets for private users are available via our platform www.picobello-shop.eu.

Bring yourself up to date with our innovative range and take a look at the new product catalog! We would like to thank our customers for their trust! New customers are warmly welcomed!

FOR WOOD, DECOR, PLASTICS, METAL, CERAMICS AND MORE ...

Find a suitable filler material for your surface and for the different types of damage. All fillers are of high quality and distinguish themselves by the following properties:

- Optimally adjusted for different demands and for different surfaces such as wood, decors, plastics, metal, ceramics, natural and artificial stone
- Suitable for indoor and partly for outdoor use.
- Can easily be levelled with the Special Fillers Applicator, the Combination Planer or the Metal Planer.
- Overcoatable with any Sprüh-König® aerosol lacquer.

- Degree of hardness: 1 (very soft) to 10 (extremely hard)
- Suitable for outdoor use
- Basic Shades

- Melting point in degrees Celsius
- Available in all 50 standard colours
- Special colour matches possible
- Suitable for indoor use
- Available in our standard RAL colours
- Six New colours for Soft Wax and Hard Wax

FILLERS/WAX

QUICK FILLER

Uses
Ideal to repair fine scratches and hairline cracks on décor surfaces in interior areas. Rub in and level with the Special Fillers Applicator. Recommended for indoor use and for surfaces that are not subject to severe use.

Characteristics
Easy and quick processing. Good overcoatability and easy to seal. Melting point at 60°C.

Order Code	Product Description
130000 - 003	10x 8cm, standard colour at choice*
130713 - 003	10x 8cm series 713, light wood shades
130714 - 003	10x 8cm series 714, wood shades
130750 - 003	10x 8cm series 750, white-grey shades

* Add the desired colour number to the order code (see separate colour chart).

HARD WAX

Available in six new colours

Uses
To repair deep scratches, holes and edge damage to real wood and décor surfaces in interior areas. Melt, apply and level with the Combination Planer or the Special Fillers Applicator.

Characteristics
Hard, melts at 81°C, good elasticity. Available in 8cm and in 4cm sticks. All colours can be intermixed.

Order Code	Product Description
141008 - 010	10x 8cm, standard colour at choice*
141712 - 010	10x 8cm, Serie 712, light wood shades
141720 - 010	20x 4cm, Serie 720, wood shades
141750 - 010	10x 8cm, Serie 750, white-grey shades
14173A - 010	20x 4cm, Serie 73A, light wood shades
14173B - 010	20x 4cm, Serie 73B, dark wood shades
141730 - 011	40x 4cm, Serie 730, wood shades
141730 - 013	40x 4cm, Serie 730 in wooden box
141780 - 011	20x 8cm, Serie 780, wood shades

* Add the desired colour number to the order code (see separate colour chart).

DUO ROYALE

Uses
To fill finest scratches in décor surfaces. For the quick filling of small (nail) holes, to colour and to refill abraded stained furniture edges. Rub in and level with the Special Fillers Applicator. Recommended for indoor use and for surfaces that are not subject to severe use.

Characteristics
Easy, quick and neat processing with the handy rotating case. High opacity, good overcoatability and easy to seal. Melting point at 60°C.

Order Code	Product Description
131004 - 045	10x 4cm, standard colour at choice*
131772 - 045	10x 4cm, Serie 772, wood shades

* Add the desired colour number to the order code (see separate colour chart).

HARD WAX PLUS

Uses
Especially for scratches, holes and edge damage to real wood, artificial and décor surfaces in the kitchen, window and flooring sector. Suitable for indoor and outdoor use. Melt, apply and level with the Combination Planer or Special Fillers Applicator. By the way: You will find an overview of the most popular Renolit/Cova/Hornschurch in our colour chart.

Characteristics
Very hard, melts at 115°C, good elasticity, dimensionally stable from -20° to +110°C. Available in 8cm and 4cm sticks. All colours can be intermixed.

Order Code	Product Description
143008 - 010	10x 8cm, standard colour at choice*
143670 - 010	10x 8cm, Serie 670, Renolit wood décor

KING CARTRIDGES RANGE

SPRAY! WHATEVER YOU WANT!

In cooperation with the company Krautzberger, Heinrich König developed a top functional spray device named KING operating with resealable lacquer cartridges. This system makes it possible to coat perfectly small surfaces and thus is ideal for use in the repair sector. **New in the program:** The KING cartridge as an empty container for filling your own paint systems.

Clean working: Thanks to the cartridge system, there is no longer a risk of splashing or leaking of the colour making it possible to even work cleanly on difficult to reach areas and overhead. **Flexible colour play:** The colour cartridges can be exchanged during one working cycle as often as desired. Thus, there are no limits of colour variation for the user. The cartridges are available in many colours. **Efficient and economical:** Being resealable, the cartridges make it possible to process small quantities. And the selective application and fine layers of paint result in very short drying times. **Easy to clean:** A cleaning cartridge ensures cleaning in seconds.

- Efficient, economical
- Clean working
- Easy colour changing
- Easy to clean

KING SPRAY DEVICE

Uses
Highly efficient hand-held spray device that works very economically with resealable paint cartridges. This system enables perfect spraying of small surfaces with minimal use of paint and is therefore ideally suited for repair and maintenance.

Characteristics
Hand-held spray device including hose with standard quick-release coupling for compressor (11mm), special grease, instructions for use - with nozzle cartridge in either Ø 0.3 mm or Ø 0.5 mm.

Order Code
409030

Product Description
King complete set:
with nozzle unit Ø 0.3 mm
and hose with quick coupling

Order Code

SPRÜH-KÖNIG® AEROSOLS

- Opaque
- Suitable for indoor use
- 50** Available in all 50 standard colours

PERFECT MATCH

In order to achieve best repair results, we provide with our Sprüh-König® brand an assortment of aerosols matched to the respective repair requirements. Whether for sealing repairs, for adjusting the degree of gloss, for effects, for priming, for preparation or everything together - whatever you want. The aerosols excels in:

- Very short drying periods
- Wipe and water resistance
- Good adhesion
- Optimally tailored to the König fillers
- Glazing
- Suitable for outdoor use
- Clear / transparent
- Waterbased
- Available in our standard RAL colours
- S.A. Special colour matches possible

SPECIAL REPAIR LACQUER PLUS

Uses
To seal repairs without showing overspray and to adjust the sheen of the surface. For indoor use on wood, décor and metal surfaces. Soft spray technology: considerably less spray mist, a smoother and pressure-reduced spraying and an even finer spray mist.

Characteristics
Transparent nitrocellulose combination lacquer, available from deep matt to gloss.

Order Code
3..300 - 215
3..300 - 240

Product Description
150ml, sheen levels at choice*

45 silk gloss
46 gloss
47 high gloss

LP SHADE EQUALIZER

Uses
For an intensive colouring/re-colouring of small parts of wood and décor surfaces in interior areas. To level off minor lacquer damage and to adjust slight colour deviations.

Characteristics
Coloured, highly translucent NC-lacquer. Sheen level: silk matt.

Order Code
328000 - 240

Product Description
LP Shade Equalizer, 400ml
standard colours at choice*

* Add the desired colour number to the order code (see separate colour chart).

SUPER-HIGH GLOSS

Uses
For the re-lacquering of small high-gloss surfaces like e.g. profiles, frames and edges. To protect metal parts (brass, copper etc.) from oxidation and tarnishing, e.g. to be used for the repair of high-gloss finished musical instruments made from wood. Recommended for indoor use.

Characteristics
Transparent acrylic lacquer, can be used to create very thin coats, good adhesion properties.

Order Code
353000 - 215
353000 - 240

Product Description
Super-High Gloss, 150ml
Super-High Gloss, 400ml

PF COVERING LACQUER

Uses
For a fully opaque colour adjustment and for the varnishing of repairs in the solid colour sector. To varnish partial areas. For interior and exterior use on solid wood, décor, metal and many plastic surfaces. Soft spray technology: considerably less spray mist, a smoother and pressure-reduced spraying and an even finer spray mist.

Characteristics
Pigmented full-covering acrylic lacquer. Sheen level: silk matt.

Order Code
372000 - 240

Product Description
PF Acrylic-Covering Lacquer, 400ml
standard shades (RAL) at choice*

* Add the desired colour number to the order code (see separate colour chart).

Note: Standard colours RAL 9003, 9005, 9010, 9016 are also available in sheen level high gloss (419003, 419005, 4199010, 419016).

SPECIAL LACQUER

Uses

A special lacquer for the opaque colouring of foil-covered window components as well as end and overcaps of ASA / UPVC windows.

Characteristics

A pigmented covering lacquer based on acrylic with high opacity, dries rapidly. Available in the most popular window colours.

Order Code

374246 - 240

Product Description

Special Lacquer, 400ml

* Add the desired colour number to the order code (see separate colour chart).

EFFECT LACQUER, FINE PEARL TEXTURE

Uses

For use on décor pearl texture surfaces (solid colours), e.g. on window profiles to restore the texture after a repair (e.g. with Hard Wax PLUS). Finally, the treated area must be coated with the appropriate covering lacquer. For indoor and outdoor use.

Characteristics

Acrylic-based Clear Lacquer with fine pearl texture effect. Dries rapidly. Good adhesion to many lacquer and plastic surfaces (not to Soft-UPVC).

Order Code

348000810916 - 240

Product Description

Fine Pearl Texture, 400ml

EFFECT LACQUER, GLIMMER

Uses

To rectify large areas of repaired or plain-coloured, freshly lacquered surfaces on which just the glimmer effect is still missing. Suitable for indoor and outdoor use.

Characteristics

Acrylic-based clear lacquer with glimmer structure effect. Dries rapidly. Good adhesion to many lacquer and plastic surfaces (not to Soft-PVC).

Order Code

352000515411 - 240

Product Description

400ml, gloss

352000615411 - 240

400ml, silk gloss

400ml, deep matt

ADHESION PRIMER

Uses

Adhesion Primer to improve lacquer adhesion to diverse plastic materials and metals in Kombination mit König Farb- und Klarlacksystemen. To increase lacquer adhesion to König fillers under mechanical stress. Suitable for indoor and outdoor use.

Characteristics

A physically drying system. A single application is sufficient. Matt film formation. Dries rapidly.

Order Code

313700 - 240

Product Description

Adhesion-Primer, 400ml

UNIVERSAL BASECOAT

Uses

For an embedding priming, e.g. as sealing primer for a new structure, as blocking primer for a repair, as smoothing primer for closed-porous surfaces. To be used on both light and dark woods. Recommended for indoor use.

Characteristics

A transparent lacquer based on nitrocellulose. Can be sanded after approx. 20 minutes. Little firing effect. Overcoatable with all König touch-up and aerosol lacquers. Sheen level: matt.

Order Code

312000 - 240

Product Description

Universal Basecoat, 400ml

PRIME LACQUER WHITE

NEU

Uses

A high build and completely opaque primer, when body, interior parts, MDF-boards and chipboards are to be re-coated with a covering lacquer. A mobile spray system for priming. For indoor and outdoor use.

Characteristics

A white-tinted nitrocellulose-based primer. Physically drying system. Good cross-linking and flow properties with excellent hardness and resistance. Very good for sanding.

Order Code

359000 - 240

Product Description

Prime Lacquer White, 400ml

MOISTURE AND BLOOM ELIMINATOR PLUS

Uses

To remove grey bloom, water and alcohol stains on NC lacquered surfaces. For indoor use.

Characteristics

A fast reacting lacquer dissolvent, providing a complete new formation of the upper lacquer coat.

Order Code

319000 - 245

Product Description

Moisture and Bloom Eliminator PLUS, 400ml

ANTI STICK AGENT

Uses

To prevent sticking grooves between sealing tape and the not yet cured thick layer glaze on windows and doors (ensures resistance to caking). For indoor use.

Characteristics

A colourless wax-based product free from silicone.

Order Code

322000 - 245

Product Description

Anti Stick Agent, 400ml

DIMETHYLETHER

NEU

Uses

Propellant for König aerosols.

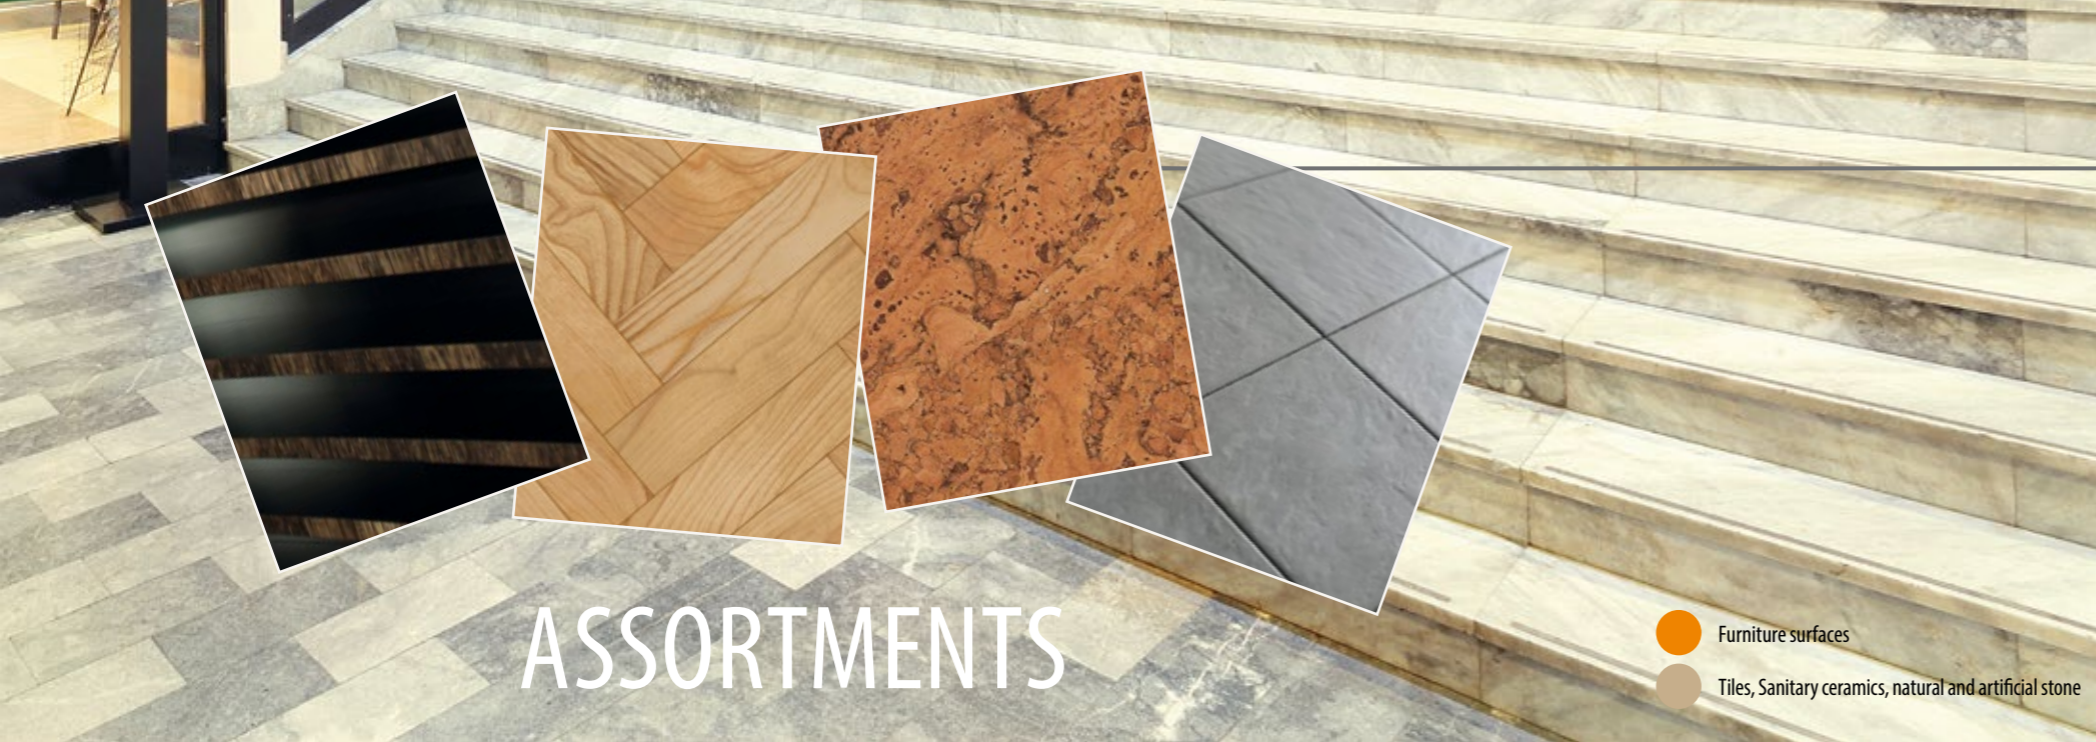

Order Code

999997-240

Product Description

Dimethylether, 400ml

NOTE: Replacement spray nozzles and spray aid can be found on page 37.

ASSORTMENTS

- Furniture surfaces
- Tiles, Sanitary ceramics, natural and artificial stone

WELL STOWED, EVERYTHING THERE!

Convince yourself of our current assortments - whether for use in the workshop, in production or on-site at the customer. Optimally tailored to diverse requirements and different fields of application, the systems are extremely clearly and functionally arranged in wooden and plastic kits.

- Flooring, Stairs
- Hotels, Gastronomy, Facility Services
- Windows, Doors, Winter Gardens
- Discontinued item, only while stocks last!

● ALL-IN-ONE KIT | 603 005

One for all: With this new ALL-IN-ONE kit you are well prepared for all kinds of damage - small scratches on the cabinet door, a chipped washbasin, an incorrectly set drill hole in a wall tile, scuff marks on a wood table or whatever. With the ALL-IN-ONE kit you repair a variety of surface damage quickly, effectively and durably. Evade costly and time extensive replacement works and make your rooms and objects look really good again. The ALL-IN-ONE Kit is ideal for facility services, hotels and gastronomy.

The new kit contains almost all kinds of fillers like Duo Royale, Soft Wax, Hard Wax, Hard Wax PLUS, Rex-Lith and Ceramic Filler as well as the fillers for sanitary ceramics and natural stone. Furthermore, various touch-up materials such as the lacquer pens Premium Edge Pen and Brush Pen as well as all necessary accessories and tools. As with all the other assortments and sets, everything is clearly and functionally arranged in this kit.

● UNIVERSAL KIT FURNITURE/INTERIOR FINISHING 1 | 603 001

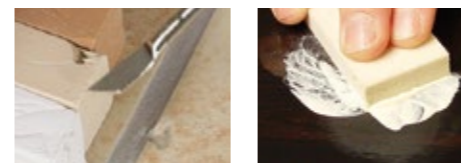

The Universal Kit 603 001 is the comprehensive system for the professional, high quality repair of nearly any kind of damage on wood and décor surfaces in the interior area (furniture, stairs, floorings). From Quick Filler, Soft Wax and Hard Wax series to Rex-Lith through to numerous touch-up materials, the kit comprises all products required to execute a good repair. All necessary accessories and processing tools are also included as well as clear lacquers for sealing. Despite the large range everything is in its place in this kit, clearly and functionally arranged. With drawers, pull-out compartments and pen holders everything is variable and can be arranged according to your individual needs in a very flexible way like a shelving system. The kit is used in the workshop or even on-site at the customer's premises.

POST-PURCHASE / SINGLE ITEM

You have already used up fillers, retouching materials or lacquers? Then simply reorder - just have a look at the different product categories in the catalogue and see which colours and colour series are available for you in the König colour table. Even aids need to be replaced from time to time when they are used intensively and regularly. You will find a large selection from page 30 onwards.

*Note: In Germany, the products "Rex-Lith DUO" and "Hardener Paste" are subject to the sales restrictions under the Chemicals Prohibition Directive (ChemVerbotsV of 20.01.2017). The products may be sold to commercial customers only.

REPAIR SET | 613 339

A compact set for the repair of furniture surfaces, ideal for on-site use. Well suited to fill scratches, holes, joints, damaged corners and edges, chips and dents on both décor and real wood surfaces. The set contains all necessary accessories as well as two clear lacquer pens to seal the repaired area and thus to protect it from dust and dirt. In addition to popular wood shades, the Hard Wax comes along with the four primary colours red, blue, green and yellow. With these colours, wood shades can be changed and adjusted.

REPAIRLUX® REPAIR SYSTEM | 403 000 | NATURAL AND ARTIFICIAL STONE

REPAIRLUX® from König provides professional solutions for the repair of damage to window sills, stairs and floorings as well as to wall tiles and kitchen worktops made of polishable natural and artificial stone. In addition to all necessary accessories, the kits contain light-curing fillers as well as lamps especially developed for curing. Our large REPAIRLUX® system 403 000 provides you with an intelligent option fulfilling different tasks. Thanks to the PowerLight technology, the fillers are cured in seconds and, furthermore, with the colour range, granulates and mica material, structural and visual natural stone effects can be imitated in an amazingly realistic way. Accessories round off the system perfectly.

CLEANING & MAINTENANCE

CLEAN AFFAIRS!

The König product world for repairs is rounded off by high-quality cleaning and maintenance products. Matched to the individual requirements and to the different kinds of surfaces we offer a good choice of powerful products - not only for professional use but also for the private sector.

By the way: With our end consumer brand picobello® you can get some of our cleaning and maintenance products as well as repair sets in a variant that is suitable for the end consumer. Start a service offensive for your company, your advantage: A high-quality König product comes supplied inside the packaging - and if you want: your name is on the packaging! Ideal as a service product, consignment slip or as a give-away for your customers. Further information can be found on page 38.

For varnished 1C surfaces

Suitable for indoor use

For oiled and/or waxed wood surfaces

For décor and plastic surfaces

Suitable for outdoor use

Waterbased

ECO CLEANER

Uses

For the gentle cleaning of décor and plastic surfaces. Removes most common household soiling. Also suitable for the basic cleaning of wood and UPVC windows. For indoor and outdoor use.

Characteristics

Waterbased product. Biodegradable and odourless.

Order Code
516000 - 605
516000 - 616

Product Description
Eco Cleaner, 150ml
Eco Cleaner, 1 litre

INTENSIVE CLEANER

Uses

The industrial cleaner for the streak-free removal of residue on décor and plastic surfaces – e.g. caused by roller conveyors in production. For indoor use.

Characteristics

Solvent-based preparation. Evaporates very quickly. Without scent additive.

Order Code
507000 - 600
507000 - 603

Product Description
Intensive Cleaner, 1 litre
Intensive Cleaner, 10 litre

PLASTIC CLEANER

Uses

For intensive cleaning of all plastic and melamine resin surfaces on furniture and accessories. Removes grease marks, fingerprints, pencil and ball point pen stains. Also suitable for the removal of old stickers. For Indoor and Outdoor use.

Characteristics

Intensiv cleaning. Evaporates in seconds.

Order Code
506000 - 605
506000 - 600
506000 - 603

Product Description
Plastic Cleaner, 150ml
Plastic Cleaner, 1 litre
Plastic Cleaner, 10 litre

SPECIAL CLEANER

Uses

Especially for the cleaning and maintenance of white UPVC windows and doors. Also to be used for anodized aluminium windows and doors. Removes light to medium soiling with ease. For indoor and outdoor use.

Characteristics

Provides a glossy silky appearance. Because of its grease-cutting properties, it is recommended to wear rubber gloves while processing the Special Cleaner.

Order Code
325100 - 245

Product Description
Special Cleaner, 400ml

PLASTIC CLEANER PLUS

Uses

For the cleaning of all plastic and melamine resin surfaces on furniture and accessories. Removes slight greasy films, fingerprints, sticker residue and pencil marks. For indoor and Outdoor use.

Characteristics

Alcohol-based preparation. Cleans without streaking. Nice smell. Non-aggressive dissolving action.

Order Code
506001 - 600
506001 - 603

Product Description
Plastic Cleaner PLUS, 1 Litre
Plastic Cleaner PLUS, 10 Litre

STAIN REMOVER

Uses

For intensive removal of water and alcohol stains and to freshen up greyed nitrocellulose lacquer surfaces in interior areas. In addition, surfaces are being cared for.

Characteristics

Solvent-based product. Reactivates and maintains the surface while providing a slight surface sheen.

Order Code
501000 - 600

Product Description
Stain Remover, 1 litre

HIGH GLOSS FURNITURE POLISH

Uses

For the cleaning and maintenance of décor, plastic, metal and varnished high-gloss wood surfaces. Removes most common household soiling as well as finest abrasion. For Indoor and Outdoor use.

Characteristics

Waterbased product.

Order Code
503500 - 605
503500 - 616

Product Description
High Gloss Furniture Polish, 150ml
High Gloss Furniture Polish, 1 Litre

FURNITURE CLEANER

Uses

For thorough cleaning of varnished surfaces in interior areas. Removes greasy films, scuff marks from shoes, stickers, wax, nicotine coatings as well as pencil marks and ballpoint pen ink stains.

Characteristics

Waterbased emulsion with intensive cleaning action. Antistatic effect.

Order Code
542000 - 605
542000 - 610

Product Description
Furniture Cleaner, 150ml
Furniture Cleaner, 1 litre

FURNITURE REFRESHER

Uses

For the gentle removal of slight water and alcohol stains and to freshen up greyed nitrocellulose lacquer surfaces in interior areas.

Characteristics

Solvent-based product. Reactivates the surface and provides a slight surface sheen

Order Code
543000 - 605
543000 - 600
543000 - 603

Product Description
Furniture Refresher, 150ml
Furniture Refresher, 1 Litre
Furniture Refresher, 10 Litre

WORKTOP MAINTENANCE

Uses

For the maintenance of melamine resin coated surfaces. Conceals visual signs of typical use (light or dull abrasions). Important: Not suitable for use on high-gloss surfaces.

Characteristics

Solvent-based product. Silicone-free.

Order Code
324000 - 245

Product Description
Worktop Maintenance, 400ml

STAINLESS STEEL MAINTENANCE

Uses

For the cleaning and maintenance of brushed stainless steel surfaces in interior and exterior areas. Removes even stubborn contaminations, greasy films and fingerprints.

Characteristics

Solvent-based product. Prevents surface from steaming up.

Order Code
325000 - 245

Product Description
Stainless Steel Maintenance, 400ml

UNIVERSAL MAINTENANCE LACQUER

Uses

For the maintenance of high-build glaze coated wood windows and foil-covered UPVC windows in interior and exterior areas.

Characteristics

Waterbased product. Dries quickly, resistant to yellowing. Sheen level: silk gloss.

Order Code
514500 - 616

Product Description
Universal Maintenance Lacquer, 1 Litre

NATURAL WOOD MAINTENANCE OIL

Uses

For the regular maintenance of oiled natural wood furniture. Protects the natural product wood from drying up. Closes and removes abraded areas and surface abrasions.

Characteristics

Mixture of vegetable oils and aromatic-free benzines. Easy to apply. Limited water repellent effect. Silk gloss character.

Order Code
520500 - 610

Product Description
Natural Wood Maintenance Oil, 1 Litre

SLIDING AGENT

Uses

To improve lubrication of joints made of wood, plastic and metal. A mobile spray system for on-site use.

Characteristics

A colourless wax-based product. Silicone-free.

Order Code
321000 - 245

Product Description
Sliding Agent, 400ml

SPRAY LUBRICANT

Uses

For spraying onto metal and plastic fittings to ensure smooth and easy handling.

Characteristics

Oil/solvent-based product with rust-dissolving and creeping properties.

Order Code
398000 - 275

Product Description
Spray Lubricant, 75ml

OIL SPRAY (IDEAL FOR THE FOOD INDUSTRY)

NEU

Uses

For the smooth running of machines and aggregates used in the production of food and beverages. Lubricates uniformly and quickly all moving and difficult to access machine parts.

Characteristics

High-quality, resin-free special oil (paraffin oil according to DAB 10, FDA 21 CFR 178.3620(a), BGA-155, USDA-H1).

Order Code
398400 - 245

Product Description
Oil-Spray, 400ml

AUXILIARIES & TOOLS

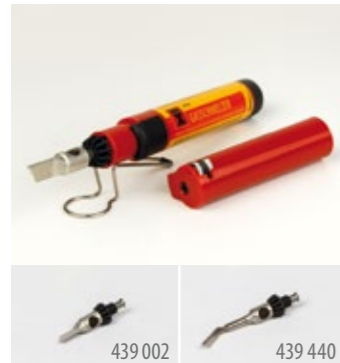

ALWAYS THE RIGHT TOOL AT HAND

In addition to the large number of fillers and touch-up materials, we offer a variety of auxiliaries to complement our range of repair products helping you to process our products effectively and to achieve best possible repair solutions. Optimally tailored to the processing requirements of our products, the auxiliaries have been well-proven over many years. You will also find spare parts and consumables that are used in connection with our case systems and sets. Find everything on the topics:

- Filling
- Mixing colours
- Levelling
- Polishing
- Retouching
- Cleaning
- Sanding, plane
- Melting
- Spatula
- Consumables
- Thinner
- Spare Parts

GAS HEATING IRON

A mobile, gas-operated melting tool for the processing of meltable fillers: for melting, molding and colour mixing. The temperature is infinitely adjustable. Because of legal regulations, the Gas Heating Iron is supplied in unfilled condition. We recommend to use high-quality pure butane lighter gas from renowned manufacturers.

Technical data:

Length 177 mm / Weight: 60 g / Operating time: approx. 3 hours (dependent on setting) / Maximum temperature: 240°C / Flint, included in delivery.

Order Code	Product Description
439001 - 420	Gas Heating Iron
439002	Spare Tip for Gas Heating Iron
439005	Flint, 12 pcs
439018	Refill Gas, 100ml
439440	Special Heater Blade

COMBINATION PLANER

The Combination Planer consists of the modified Special Fillers Applicator with integrated mini Metal Planer blade. This combination tool levels all kinds of König fillers. 90 degree inner edges can be treated not only with the blade of the Metal Planer but also, thanks to an altered groove direction, with the body of the Special Fillers Applicator.

Order Code	Product Description
161700 - 420	Combination Planer

ELECTRIC HEATER

A stationary electrical melting device for continuous operation serving the same range of use as the Gas Heating Iron. Easy to use due to temperature setting adapted to the different kinds of fillers.

Technical data:

Heater: Voltage: 12 V / Power: 25 W / Lead: 2.5 m / Transformer: Primary voltage 230 V, 50 Hz / Secondary voltage 12 V / Nominal power: max. 30 W / Temperature setting: infinitely variable, with scale of range / Function indicator: red LED

Order Code	Product Description
440600	Electric Heater, complete
440603	Melter Tip for Gas Heating Iron
440604	Transformer for Electric Heater
440605	Melter with Tip

METAL PLANER

A precision tool for the gentle levelling of all solid König fillers. It is also an effective tool to remove imperfections in the finish like runs and sags. Precise working possible without scratching the surrounding area. The high-quality blade made of chrome vanadium steel can be used on both sides. The leather protective cover is included in delivery.

Order Code	Product Description
163000 - 420	Metal Planer
163002	Metal Planer Blade (Spare blade for the Metal Planer)
163900	Mini Metal Planer

Mini Metal Planer:

The smaller version of the Metal Planer with a mini chrome / vanadium blade sits on a cork sole, which can also be used as an abrasive cork for sandpaper.

SPECIAL FILLERS APPLICATOR

The smart nostrum for the processing of fillers. Soft Wax can easily be applied and levelled. Projectings of Hard Wax and Hard Wax PLUS simply to be stripped off with the grooves without scratching the surrounding area. Final filler residue is removed with the fleece stored inside the tool.

Elements:

Corpus with planer grooves, drawer with cleaning comb sanding and polishing cloth (small) and sanding pad (coarse).

Order Code	Product Description
161149 - 420	Special Fillers Applicator

SPECIAL SCRAPER

To level the filled area evenly and to remove lacquer runs and bumps in the lacquer surface. High-quality steel, tempered and sharpened cutting edges. Special Scraper "small": especially designed to remove scratches in white UPVC window frames, particularly well suited for difficult-to-reach areas.

Order Code	Product Description
406000	Special Scraper 160x50mm
406500	Special Scraper small, 75x50mm

SANDING PAD COARSE

Order Code	Product Description
609003	SandingPad, coarse 100x60mm

To remove filler residue with a light sanding effect and to dull shiny spots. Grit: 1500

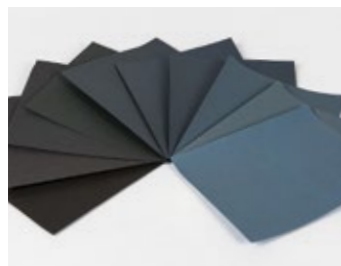

WIRE WOOL, EXTRA FINE

Order Code	Product Description
413600 - 409	Wire wool, 50g
413000	Wire wool, 200g
413600 - 075	Wire wool, 6kg

For finest lacquer sanding, to tone down a heavy application of touch-up products and for the gentle cleaning of the melter tips (Gas Heating Iron and Electric Heater).

SANDPAPER, WET

Order Code	Product Description
415024	A4 sheet, grit 240
415028	A4 sheet, grit 280
415032	A4 sheet, grit 320
415040	A4 sheet, grit 400
415050	A4 sheet, grit 500
415060	A4 sheet, grit 600
415080	A4 sheet, grit 800
415100	A4 sheet, grit 1000
415120	A4 sheet, grit 1200

For an optimal preparation of varnished surfaces and metal prior to varnishing or painting.

SANDPAPER, DRY

Order Code	Product Description
414010	A4 sheet, grit 100
414015	A4 sheet, grit 150
414018	A4 sheet, grit 180
414024	A4 sheet, grit 240
414028	A4 sheet, grit 280
414032	A4 sheet, grit 320
414040	A4 sheet, grit 400

For an optimal preparation of wood and plastic surfaces prior to varnishing or painting.

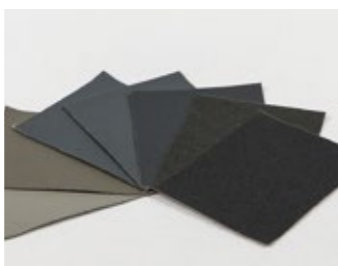

SET OF GRADUATED SANDPAPER

Order Code	Product Description
609002	Sandpaper-Assortment 16x ¼ sheet (DIN A6)

Assortment for different kinds of surfaces: dry sandpapers for wood and plastics, wet sandpapers for metal and varnished surfaces. Dry Sandpaper, 2 sheets each: grits 150, 180, 240, 280, 320. Wet Sandpaper, 2 sheets each: grits 400, 500, 600.

MICRO SANDING PAPER

Order Code	Product Description
412218	Grit 1800, 12x15cm
412224	Grit 2400, 12x15cm
412232	Grit 3200, 12x15cm
412240	Grit 4000, 12x15cm
412260	Grit 6000, 12x15cm
412280	Grit 8000, 12x15cm
412320	Grit 12000, 12x15cm
412007	Assortment*

To polish out fine scratches on all varnished surfaces, acrylic/perspex, polyester, Hard-PVC, brass and aluminium. Excellent results on high-gloss surfaces. Application of wet sanding method. Can be washed out. *The assortment comprises 1 sheet each per grit, sized 6x 7.5cm.

SANDING LIQUID

Order Code	Product Description
655500 - 605	Sanding Liquid, 150ml
655500 - 601	Sanding Liquid, 250ml

For use with Wet Sandpaper and Micro Sanding Paper.

POLISHING PASTE FINE

Order Code	Product Description
655600 - 605	Polishing Paste Fine, 150ml
655600 - 601	Polishing Paste Fine, 250ml
655600 - 616	Polishing Paste Fine, 1 Litre

To polish out fine sanding streaks and abrasion on high gloss surfaces. Waterbased product - does not leave any residue.

CORK SANDING BLOCK

Order Code	Product Description
418000	Cork Sanding Block, small 60x33x26mm
418100	Cork Sanding Block with Felt Pad 60x33x39mm

For use with all König sandpapers. With Felt Pad: For use with Micro Sanding Paper. Ideal for UPVC profiles. Adapts to the slightly convex surface of the profile.

FELT PAD

Order Code	Product Description
419000	Felt Pad
420000	Felt Pad with abrasive lining (1500 grit)

The Felt Pad is used with a cloth to remove filler residue and to process polishing paste. The version with abrasive lining is used to remove filler residue without a cloth.

EDGE PLANER

Order Code	Product Description
165000 - 420	Edge Planer

To cut off damage edges on décor surfaces. The rounded side of the Edge Planer is used to level damage edges on solid wood and veneer.

MODELLING INSTRUMENT

Order Code	Product Description
165200	Modelling Instrument, 116/0

For filling and fine adjustment of e.g. REPAIRLUX® fillers.

BRASS BRUSH

Order Code	Product Description
407000	Brass Brush

For the gentle cleaning of the Metal Planer blade.

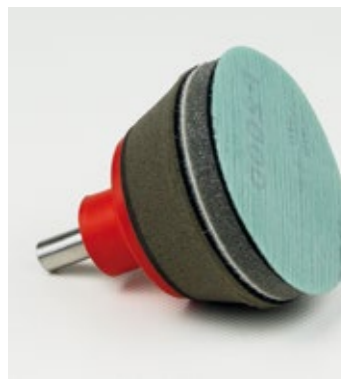

LACQUER CLOTH

Order Code	Product Description
421100 - 420	Lacquer Cloth

To prepare surfaces for the lacquering process or to remove unpleasant spray mist after lacquering without leaving any residue. Dust and dry dirt will be completely absorbed. The carrier material is a high-quality, loose gauze-fabric allowing dust to enter into the inner layers whilst reliably binding it. The impregnation is completely free from silicone and waxes, absolutely harmless to any type of lacquering and will not dry up.

TOOLS FOR MANUAL POLOSHING AND THE SANDING / POLISHING SYSTEM

430004	Red Marten Brush No. 4
430005	Red Marten Brush No. 5
430006	Red Marten Brush No. 6
430123	Assortment of 3 (No. 1-3)

Meets highest demands when retouching with

Touch-Up Dye, Colour Touch-Up and the Touch-Up Paint Box.

MAINTENANCE SPONGE

Order Code	Product Description
515101	Maintenance Sponge

Sponge for the processing (application) of Universal Maintenance Lacquer.

SANDING AND POLISHING CLOTH

Order Code	Product Description
411000 - 420	Sanding and Polishing Cloth, 100x130mm
411000 - 402	Sanding and Polishing Cloth, 100x130mm, 5 pcs
411000 - 403	Sanding and Polishing Cloth, 100x130mm, 10 pcs

White side to dull shiny patches on the surface, to clean plastic and varnished wood surfaces and to remove spray mist. Green side for polishing and to produce a gloss finish on matt surfaces.

MAGNIFYING GLASS

Order Code	Product Description
434000	Magnifying Glass

For the improved evaluation of both damage substrate and damage edges. To identify fine grain patterns.

SPRAY CAN HANDLE

Order Code	Product Description
399100	Spray Can Handle

The Spray Can Handle as an attachment to aerosol cans allowing convenient permanent spraying.

PIPETTE

Order Code	Product Description
295000	Pipette
295200	Pipette with an ultra-thin tip (for Rex-Lith Colour Concentrate)

For the precise extracting/dosing of touch-up dyes and to refill Felt Touch-Up Dye Pens

PLASTIC FILMS

Order Code	Product Description
162000	Plastic Films, 89x60mm

A transparent solvent-resistant foil with a variety of possibilities for use like e.g. mixing colours over a surface, processing Rex-Lith, especially on edges.

SPRAY NOZZLES

Order Code	Product Description
1. EB3233	Swirl nozzle, big orifice: For wet varnishing of whole surfaces. Recommended for Universal Basecoat. Also suitable for Sliding Agent, Anti Stick Agent and all maintenance products in the spray can.
2. EB3213	Swirl nozzle, medium orifice: For wet spraying during repairs. Recommended for Furniture Lacquer PLUS, PF/PFH Covering Lacquer.
3. EB3212	Swirl nozzle, small orifice: For very fine misting. Recommended for Super High Gloss, Shade Equalizer P or LP, Moisture and Bloom Eliminator PLUS.
4. EB3228	Swirl nozzle, white: for AQUA Clear Lacquer
5. EB3243	Swirl nozzle-soft spray technology: For Special Repair Lacquer PLUS, Clear Lacquer PLUS as well Covering Lacquer PF and PFH.

MIXING PALETTE

Order Code	Product Description
603095	Mixing Palette 140x105x15mm

A handy mixing palette with a solvent-resistant surface and drilling holes for a safe stand of mixing cups and brushes.

MIXING CUP

Order Code	Product Description
641120	Mixing Cup, 40ml
403040	Mixing Cup, 350ml for REPAIRLUX®

Suitable for multiple uses, e.g. for practical dosing and for mixing Polyester Filling Lacquer. Also suitable as a container for NC thinning.

SPARE TIPS FOR PEN SYSTEMS

Order Code	Product Description
1. EB2275 - 420	Spare Tips for Graining Pen (10er pcs)
2. EB2265 - 420	Spare Tips for Felt Touch-Up Dye Pen (10er pcs)
3. EB2200 - 420	Spare Tips for AQUA colour Edging Pen, round (10er pcs)
4. EB2898 - 420	Spare Tips for PREMIUM Window Pen and PREMIUM Edge Pen (10er pcs)
294999	Spare tips for PREMIUM pens, 500/box

KÖNIG PRACTICAL TRAINING COURSES

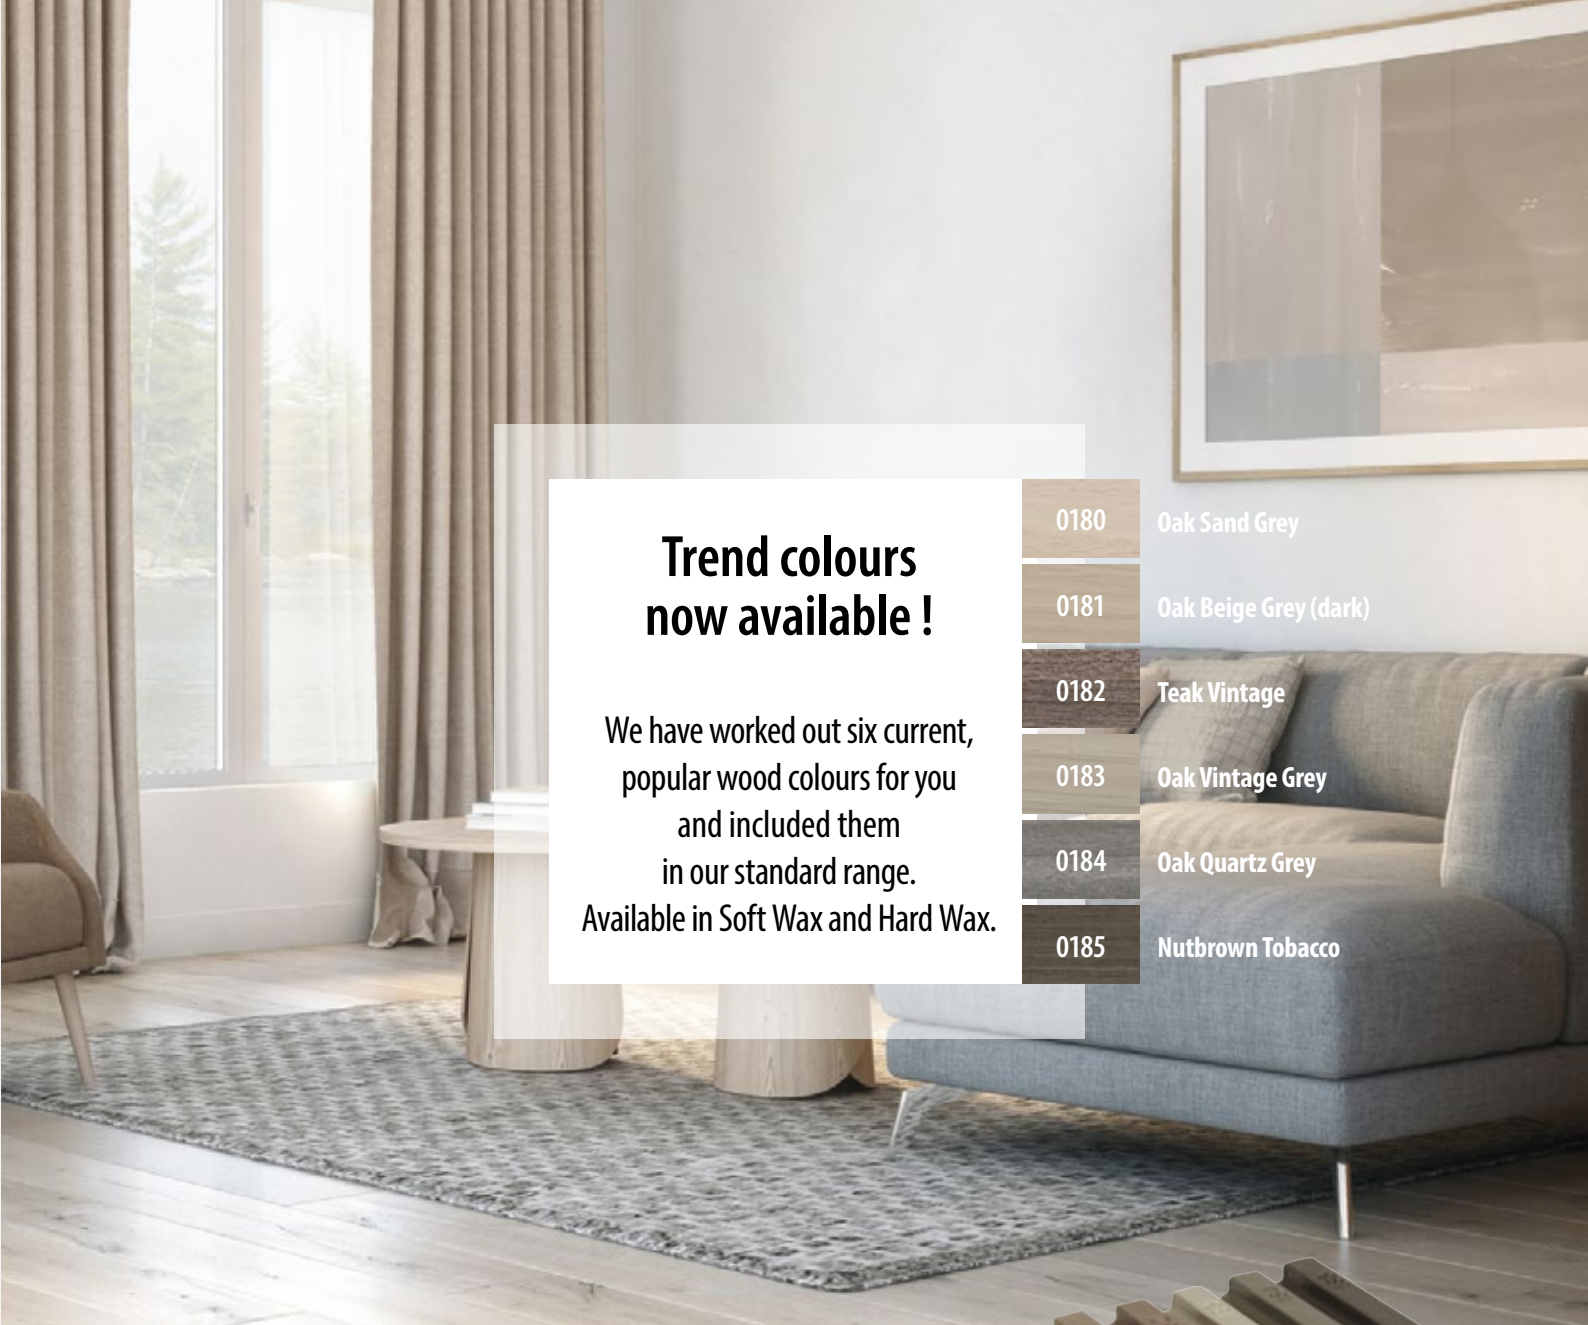

Making the most of König Repair Products: To ensure a repair is carried out to the highest possible standard it is essential to apply the correct repair techniques. These skills are vital if you are going to use the König product range to its potential. That is why König offers a range of hands-on training courses in which both theoretical and practical aspects on how to carry out successful repairs are explained. The training courses are tailored to the requirements of specific markets such as Furniture, Windows, Flooring, Granite/Marble etc. to ensure customers will get the skills they actually require.

König products are used in many different areas such as production, inspection, delivery, after sales and by endusers to repair cosmetic damage. They have been proven to reduce costs, save time and avoid customer complaints.

We offer training courses in many countries via our foreign agencies. Should you be interested in attending a training course, please give us a ring or contact directly the agency in charge of the relevant country.

Your contact at Heinrich König office: Thomas Grieshaber - Phone +49.6101.53 60 0, thomas.grieshaber@heinrich-koenig.de

**Trend colours
now available !**

We have worked out six current,
popular wood colours for you
and included them
in our standard range.
Available in Soft Wax and Hard Wax.

0180	Oak Sand Grey
0181	Oak Beige Grey (dark)
0182	Teak Vintage
0183	Oak Vintage Grey
0184	Oak Quartz Grey
0185	Nutbrown Tobacco

NEW VINTAGE LOOK COLOURS

The Vintage Collection: Available in Soft Wax and Hard Wax

We have developed six popular trend wood colours for you and included them in our standard range. The expansion of our already established standard range of colours to include dusty and grey wood tones rounds off the spectrum and leaves nothing to be desired when it comes to colour mixing. Expand your repertoire: We are now offering the six new vintage colours as soft and hard wax.
